PROFESSIONAL POSITIONS

Broad, pragmatic professional and lifelong learner making a deliberate return from software development to a business-oriented role. Before entering tech, I held entry-level management positions in retail, at UPS, and in property management—building strong client skills and business intuition. I then rose quickly in software, reaching my career goal of principal software engineer, before spending a decade immersed in self-directed study. Now ready to combine business acumen, technical fluency, and a people-first approach to deliver measurable results in a dynamic, client-driven environment. [See References](#)

Career Break Grand Rapids, MI

Independent Growth and Exploration Mar 2015 - Present

- Earned a PMI-compatible Project Management Certificate from Grand Valley State University (2025), deepening expertise in planning, execution, and leadership.
